

Subscribe to FAS services: Keeping you up-to-date on the latest farming-related news

The Defra funded Farming Advice Service (FAS) provides integrated advice to farmers and land managers. The FAS provides free, confidential advice and guidance on:

- Cross compliance
- CAP 'greening'
- Water use and quality
- Pesticide use, including Integrated Pest Management planning

The advice programme delivers a range of free support services designed to keep you up-to-date on the latest information and news.

➤ **Technical Helpline**

Farmers and land managers can access advice via the technical helpline which offers access to specialist independent advisers. To contact the FAS helpline, please call **0345 345 1302** or email advice@farmingadvice.org.uk for general enquiries.

➤ **Free regional events**

To find out what is planned for your area please use the visit <http://www.defra.gov.uk/farming-advice/events/>

➤ **Free text message updates**

Users state that FAS texts are "very informative" and provide a "timely reminder".

Get relevant information quickly, including updates of approaching key dates for cross compliance via the free FAS text messaging service. To register for FREE text message updates, please call 0345 345 1302 or email bookings@farmingadvice.org.uk with '**Register for text updates**' in the subject line.

➤ **Subscribe to the free FAS newsletter**

95% of respondents have provided very positive feedback about the newsletter, stating that the information provided is very informative, concise, to the point and easy to read.

Our bi-monthly email newsletter includes articles, practical guidance on common issues and updates on any forthcoming legislative changes. If you would like to sign up to receive the FREE FAS newsletter via email please call **0345 345 1302** or email bookings@farmingadvice.org.uk with '**Register for newsletter**' in the subject line.

➤ **We're on Twitter!**

Follow us on @DefraFAS for up-to-the-minute updates on publications, events and industry information.

The FAS programme draws upon expertise from national and regional stakeholders and highly respected agricultural consultancies and research organisations to ensure that the advice delivered is targeted, relevant, accurate and independent.
